UNIFORM FITTING GUIDE

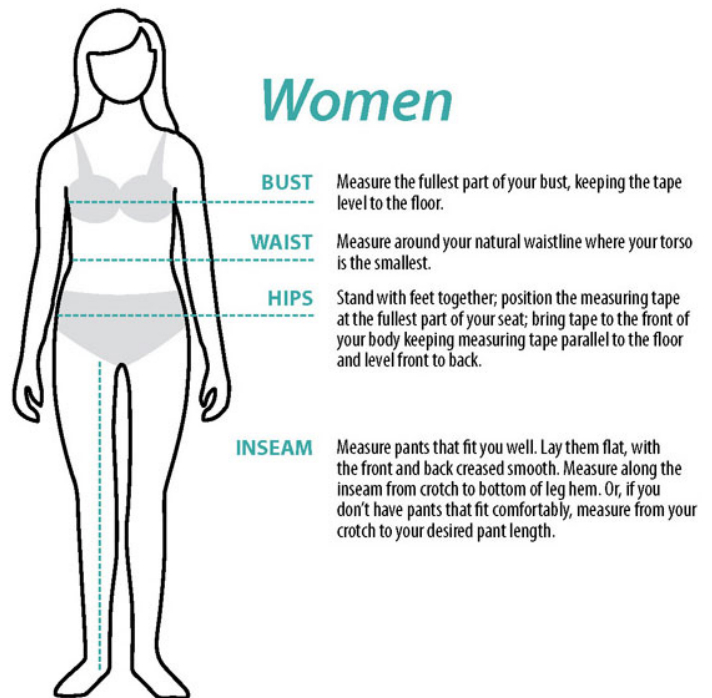

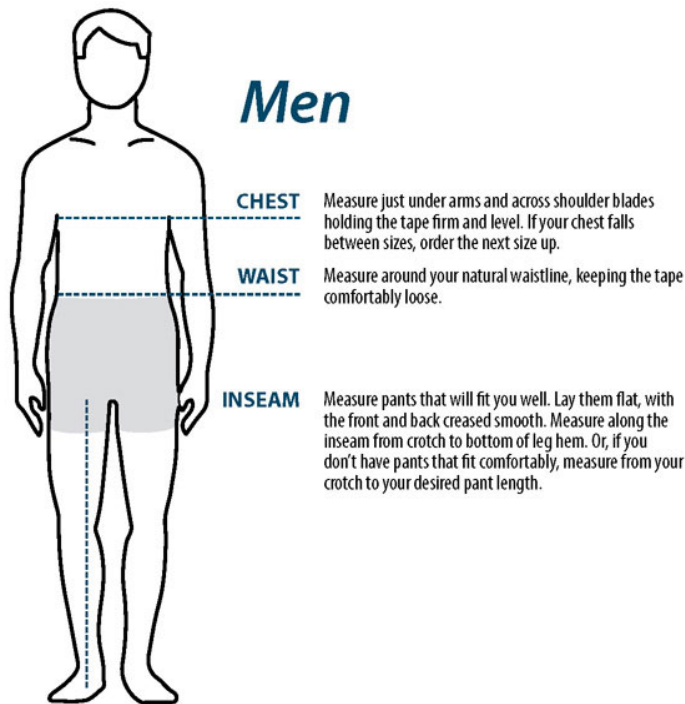

SIMPLE INSTRUCTIONS FOR DETERMINING CORRECT UNIFORM SIZES AT HOME

FITTING UNIFORMS AT HOME:

For the health and safety of our students, their families and our staff, we are not able to conduct in-person uniform fittings for the upcoming school year. As an alternative, we are asking that each student use the enclosed measuring tape to measure themselves for the proper uniform sizes.

MEASURING INSTRUCTIONS:

Please follow the instructions below to measure your student for their proper uniform size. A paper measuring tape has been provided to assist with measurements. Write down your measurements in the space below.

MEASUREMENTS	CHEST/BUST:	INCHES	WAIST:	INCHES	INSEAM:	INCHES
--------------	-------------	--------	--------	--------	---------	--------

MEASURING TIPS:

- When measuring your waist move the tape measure as needed to continue measuring around your body until you reach the original starting point. Or use the tape to measure the waist of (non-elastic) pants that fit you well.
- Item-specific size charts are available on the website to help you determine the correct size for the individual uniform items you need to order. Compare your measurements above to these charts to determine the correct size.
- Men's pants are sized by waist and inseam measurements.
- Women's pants are sized using traditional women's sizing for the waist, but you will need to provide an inseam measurement to receive the correct length.
- Compare your measurements to your existing clothing. If you are in between sizes, consider choosing the larger size.
